

LINEWORKER SAFETY GEAR WORD SEARCH

Lineworkers use a variety of gear to stay safe while working near power lines and other electrical equipment. Read about their safety gear below, then find and circle the **blue** words in the puzzle.

- Safety **goggles** keep debris out of a lineworker's eyes while they work.
- Rubber **gloves** are insulated and protect lineworkers from electric shock.
- Steel toe **boots** provide extra protection when lineworkers lift heavy objects.
- **Hard hats** protect lineworkers from potential head injuries.
- Lineworkers wear a safety **harness** to prevent falls while climbing poles or working in a bucket.
- Lineworkers use a **hot stick**, an insulated tool made from fiberglass, when working on energized lines.
